

'Pass It On'

All I talk about is 'Me Me Me'. So lets talk about 'Them' My kids. I passed some genes on to them. Mostly good ones.

To start with theres Bud. First he loves to take something back that he bought. Thats something he knows isn't right. You can hear him all over the store (Where The Manager) Hes not scared of anybody or any thing & he doesn't worry about nothing. And theres Jimmy. I passed out of Auto Mechanics School with the highest possible score possible. Thats brings me to 'Jimmy'. Hes a first class Auto & Truck Mechanic. He eats all the time like me & he stays the same size. Like me his favorite Tapes are 'Tomestone' & 'Delivance'. And theres 'Rainny' 'Sorraine' She must have gotten her neatness from her Mother. I was quite a Photographer in my early years. I was pretty good & I still am with a Video Camera. I must have passed some of my picture taking stuff on to her. Every body in the Family knows Sorraine is the Camera Genius. And theres 'Sher' Sharon. If anybody ever had had a Clone its me. The same little things that break me up does the same for ~~me~~^{her}. Soon as I call her on the phone I start laughing & so does she. Quite often when she turns her head a certain way. Shes the spitting image of my Mother. Her ('Grand Mother')
